Shaping the Future of Ceramics & Advanced Materials

ceramics India serves as a focused B2B platform connecting buyers, manufacturers, and technical decision-makers in the ceramic production industry.

Looking forward, the 2027 edition will expand its scope to highlight technical ceramics and advanced materials tailored for high-tech sectors such as aerospace, automotive, electronics, and medical technology.

What to Expect in 2027

300+

The Complete Ceramics Ecosystem

Exhibitor Profile

- Building materials - Raw materials & additives
- Building materials - Machinery & processing equipment
- Technical ceramics - Raw material, components & technology
- Digital printing technology & specialized inks
- Analytics and R&D
- Heat treatment & refractories
- Automation, handling & logistics
- Brick-making machines and heavy clay technology

Visitor Profile

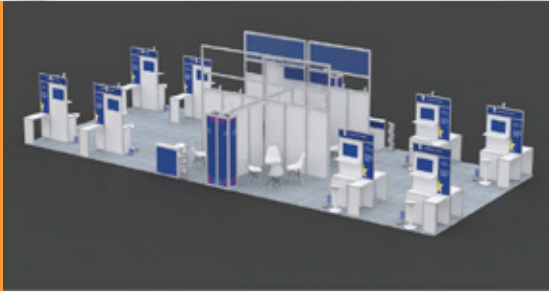

- Tile & sanitaryware manufacturers
- Tableware manufacturers
- Stoneware manufacturers
- High-performance ceramics users: Automotive, Solar, Energy, and Aerospace
- Insulator manufacturers
- Mine owners
- R&D professionals & technical institutes
- Technology seekers & consultants
- Brick manufacturers

Exclusive Technical Ceramics Pavilion

A dedicated platform for suppliers of raw materials, components, and technology in technical ceramics to showcase innovations and connect with key industries such as semiconductor, automotive, solar, electronics, aerospace, and insulator manufacturing.

As industries pivot toward high-performance solutions, Technical Ceramics have emerged as the cornerstone of modern engineering. From the precision requirements of the aerospace and automotive sectors to the biocompatibility needs of medical technology and the rapid growth of electronics, technical ceramics are driving the next wave of industrial evolution.

Why it Matters

Industries are increasingly adopting these advanced materials because of their unique performance profile:

Thermal Excellence:

Extreme heat resistance and high thermal stability

Mechanical Strength:

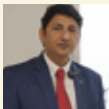

High flexural strength and high-strength durability.

Chemical & Electrical Integrity:

High resistance to chemical corrosion and superior electrical insulation.

Industry Speaks

"With exceptional momentum from day one, this year's event delivered high-quality engagement that translated directly into onsite contracts. The event continues to evolve and bring fresh opportunities."

Anand Pande,
Managing Director,
SACMI Engineering

"This event is indispensable for us. It's the perfect platform to showcase our solutions to India's top decision-makers and industry leaders year after year."

Edward Zheng,
Sales Director –
Regional, KEDA

"This is a crucial event for us. Year after year, it connects us with the high-caliber decision-makers needed to drive real business potential in the Indian market."

Roberto Bonucchi,
Sales Director,
System Ceramics

"This event is the go-to place for exploring new materials and simplifying sourcing, with the entire supply chain available for easy evaluation and adoption of new technologies."

Maulik Kumar Mochi,
Cera Sanitarware

"My first visit here has been highly productive. We came with a specific goal to improve our operational efficiency, and the event has already provided us with several practical solutions to achieve that."

Aravind Perera,
Royal Ceramics Lanka PLC

"The networking opportunities at this event are valuable, helping us connect with interested organizations."

Neeraj Patel,
General Manager –
Coal Marketing,
GMDC Limited

"My experience was valuable, especially the technical sessions. I encourage more participation so teams can apply these insights and drive innovation in their organizations."

Arindam Chaudhri,
General Manager – Quality,
Somany Ceramics

Key Industry Buyers

National and FIE price (per sqm in INR):

Space Type	Regular Price*	Surge Price**
Bare space	₹ 15,000	₹ 16,500
Shell space	₹ 16,500	₹ 17,600

*Applicable till 31st December 2026

**From January 2027

International Price (per sqm in EUR):

Space Type	Price
Bare space	€ 241
Shell space	€ 268
